

Golden Bookmarks Vol. 1

Dear valued subscriber,

Thanks for downloading this short resource report, I hope you'll find value in it.

Enclosed are *some* of my **personal bookmarks** of the most frequently websites and tools I've used for various Internet Marketing purposes, including other useful ones I've found for you.

All of them are free for you as I've made it a point to include only no cost resources here.

Think of this as an **insider rolodex** stuffed with little **goldmines** for your own business.

If you'd to bundle up the monetary worth of these resources, they'll come up to **thousands of dollars** in real value. I'd value this report at \$47 or more but it's yours entirely free as a special gift.

This list however does not contain everything and the bookmarks listed are by no means the only ones you should use. View them as additional resources.

They're nothing 'secretive' and you may even know of them, but if you don't, you do now.

Disclaimer: It's not in my capacity to guarantee any results from these resources or to be responsible for your use of them. So do so at your own 'risk'.

I'll be giving you more such bookmarks in future if you like them, stay tuned...

The 'Midas Touch' is Yours!

Ewen Chia

PS. Make sure you also [check this out](#) if you've not...you'd *want* to secure your place right now before...
